

**Vineyard & Ranch Owners
can now get an endless supply
of atmospheric drinking water
with cost-effective air-to-water
generating technology!**

Large-Scale AWG

Large-Scale AWG by: Watergen

Requiring little to no infrastructure other than power, the **Watergen Gen L** Atmospheric Water Generator (AWG) converts local humidity into over 1,500 Gallons Per Day (GPD) of drink-ready water. By incorporating multiple units together to produce 10,000 to 50,000 GPD into a water production facility, you can create the ultimate endless water resource that meets your operation's individual needs.

GridZero specializes in designing and can deliver standalone turnkey water plants that operate off sustainable solar power, generators or local power grids. Call us today to answer any questions and schedule a Site Evaluation to determine your needs and cost for a water plant for your home, ranch or farm.

EARTH FRIENDLY SOLUTIONS
POWER, ATMOSPHERIC WATER & MICROFARMING

Turn the Humid Air Around You Into Clean Drinking Water

In the age of declining water quality issues within even the best population centers. Isn't it time to consider a cost-effective and safe alternative water resource for your home or business?

The solution to having a renewable supply of clean quality drinking water is in the humid air we already breathe daily. Let us help you unlock this ultimate water resource for you today!

GridZero Inc. can design an Atmospheric Water Generating (AWG) system, built by **Watergen** the world leader in proven air-to-water technology. Whether you need 50 or 1,500 Gallons Per Day (GPD), want to operate using solar, a generator or go off the local power grid, we have the right solution to fit your need and budget.

239 GPD System

Our Estate & Vineyard Package seen here on the left incorporates a **Watergen** M PRO 239 GPD unit, a 600 gallon Stainless Steel water storage tank & Smartflower solar systems with sun tracking and energy storage battery.

The process starts with a phone call to us, then a site evaluation to define equipment & costs for a turnkey installation. Call us at **702.771.7838**
